Objective

I am eager to leverage my skills in full-stack development to contribute effectively to innovative projects in software engineering. I am particularly interested in roles that offer opportunities for growth in frontend and backend development, where I can apply my problem-solving abilities and passion for creating impactful software solutions.

Education

- **United College of Engineering and Research**   2021-2024
  Bachelor of Technology(B.tech)
  67%

- **Sevdie Institute of Management and Technology**   2017-2020
  Diploma
  70%

- **Allahabad Public School**   2017
  High School
  8.2 CGPA

Skills

- C++, STL, OOPS(Object Oriented Programming)
- Data structure and Algorithms
- HTML, CSS, JavaScript, React JS, Node js, MongoDB, Mongoose.
- Git and Github
- Tailwind CSS
- Appwrite Service

Projects

- **Book Store Website**
  A full-stack bookstore project is a web application that allows users to browse, purchase, and manage books. The project involves both front-end and back-end development. The front-end is the user interface that users interact with, while the back-end is the server-side code that powers the application.
- **Blog Website**
  Built a robust web application utilizing ReactJS to create a dynamic and interactive user interface. Leveraged Appwrite's backend infrastructure for efficient data management and user authentication.

Personal Details

- Nationality : Indian
- Gender   : Male
- Place   : Prayagraj
